U. S. WARRANTS PRESIDENT OF COURT ARE ISSUED FOR

Four Leaders of Alleged Conspiracy To Foment Strikes and Cripple American Industry Have Refused To Surrender

'WOLF OF WALL STREET' AND OTHERS GIVE BONDS

Captain Von Rintelen, Also Wanted. Said To Be Prisoner In Tower of London Awaiting His Execution For Espionage

(Ageociated Press by Federal Wireless.) Y EW YORK, December 30 .- Bench warrants were issued in the United States court here vesterday the arrests of Frank Buchanan member of congress from Chicago: For mer Congressman H. Robert Fowler of Elizabethtown, Illinois, attorney for the Labor's National Peace Council: R. B. Martin, member of the council, and Herman Schulteis, also a member, all of whom have been indicted as principals in a conspiracy to foment strikes in American munition factories, for receiving pay from a foreign government for their efforts to cripple American industry, and for bribing others to stir up trouble in American manufacturing

These four refuse to surrender themselves to the federal authorities and warrants have been issued accordingly and sent to Washington to be served Their alleged accomplices, Jacob Taylor, president of the council; Frank

Monnett, former attorney general of the State of Ohio, and David Lamar, known as "the Wolf of Wall Street," yester day surrendered to the United States marshal and were released on bonds of

DR. RINTELEN FACES DEATH

Von Rintelen, it was announced early in the month, had returned to the United States and been placed under arrest. This, it now appears, was an error, the German army captain, said to be personal friend of the Kaiser, being still held by the British. Rumor states that he has already been convicted before a British court martial of espionage and sentenced to death. A recent despatch, credited to Ber lin, dated December 17, says:

The German Government has refused to liberate Dr. Henri S. Beland, captured in the fall of Antwerp, but by District Attorney Woolwine. Reit has officered to exchange him for Franz erated assertions by elergymen and von Rintelen, according to advices reecived today by Arthur Ecrement, a former member of parliament.

Von Rintelen is now understood to he in the Tower of London under sea tence of death for espionage."

Findings Simply State How Mrs. Mary P. Moore Came To Her Death

MISS SPRING AND PEDON EXCUSED FROM TESTIFYING

Whether Case Will Be Taken Before Grand Jury Not Yet Determined

For two hours yesterday afternoon oroner's jury listened to the testimony of the nine witnesses called by the prosecution to determine the cause and arrounding circumstances of the death of Mrs. Mary P. Moore, who was struck by an automobile December 20, dying Monday night after an operation at the Queen's Hospital.

After a short interval the jury brought in the finding 'that Mrs. Mary P. Moore came to her death as a result of a fracture of the skull, said in rill. Sam Hardesty, C. A. Stuart, H. (Brown and J. Uluibi.

The jury satisfied itself with making this finding and withheld from touching on the question of Miss Spring's responsibility for the woman's death. Deputy (ity Attorney Christy has not made a statement of whether or not he will attempt to have the grand pary make a further investigation of the case, Miss Spring and Doctor Pedon being under indictment now on a charge of deserting the woman after the acci-

That Miss Spring was driving the ma chine, accompanied by Doctor Pedon; that she was traveling at a rate of twelve or fifteen miles an hour; that when informed of the accident by harles Gulick, who met the two at the Pali, both Miss Spring and Doctor Padon declared they did not know they had struck anyone, and readily con sented to report to the police stationthese are a few of the interesting

points brought out at the inquest. Miss Spring and Doctor Pedon, acting on the advice of their counsels, Attorneys Frank E. Thompson and Ebert J. Botts, asked to be excused from testi fying at this time, and so the inquiry was confined to the witnesses called by

the coroner.

There were a number of slight diserepancies in the testimony, particular-ly on the question of whether Miss ring's machine continued . traveling at the same rate of speed after the acsident as it did before. One or two of the witnesses were of the opinion that slowed down, while the others were

certain that its speed did not change.
Attorney W. T. Rawlins, Dr. C. G. Patterson and J. W. Seller, who testied they saw the accident, declare cople of Islands Have Given Bumps and Lumps On Highway that after the accident they called out renewed campaign. This army is reto the passing machine to stop, and at ported to be 75,000 strong and included that two of the witnesses stated they the Serbs who retreated into Northern

> Miss Spring rode. Attorney Rawlins' account of the accident was given first. He stated he Mr. Seller and Mrs. Seller and a Miss McDonald were with him.

"We were traveling about twelve miles an hour and when near the elecumps of concrete taken from the road, tric light station we saw another wachine coming toward us, and we also could make out the figure of a woman walking along our left hand side of the read. The other machine struck her when we were about eighty feat away. The woman fell to the ground and the

other machine kept going."

A great many of the interrogations centered around the question of waeth-Miss Spring knew of the accident at n his return what he found and what the time. Attorney Thompson brought he will then think should be done. So, out the point that the Berkeley gir or the time being, exit lumps and and Doctor Pedon had remained on the Pali more than a half hour after the accident; that they were visably appalled with the news that they for permission to install a pump and a struck a woman, and that they readily

> The other witnesses called were Emergency Physician Ayres, Dr. 11. V Murray, Mrs. Patterson, Mrs. Seller and G. W. Moore, son of deceased.
>
> Both Miss Spring and Dector Pedon

> stated after the accident that they had felt a jar to the machine near where the tragedy happened, but had thought it was caused from striking a rut or something of the kind in the road. They explained not having seen the woman in the road by saying the lights of the approaching machine bin ded them to part of the road.

SCIENTIFIC CONGRESS FAVORS ARBITRATION

(Associated Press by Tederal Wireless)
WASHINGTON, December 29.—That
all disputes between nations of North Central and South America should be arbitrated was the keynote of addresses today before the Pan-American Scientific Congress now in session here. Estimatea given by speakers are that should the war continue until next August the cost will reach eight billions of dollars, and that the number of lives lost by the end of the second year probably will be twelve millions.

Unusually Severe Weather In Russia and Along Western Front Checks General Activities, But Bessarabia is Allame

ALLIES CLAIM CONTROL OF WESTERN SITUATION

Italian Invaders Are Approaching Serbian Border, While Slav Compaign in Mesopotamia Is Said To Be Making Headway

(Associated Press by Federal Wireless) ONDON, December 30.-Unusually severe weather in Russia and a winter colder than the average along the western front has checked the general activities and it is probable that for the next few weeks there will be few developments of note in either theater of the war.

On the southern section of the Rus sian front, in Bressarabia, there has een some severe fighting, Petrograd laiming that substantial advances have been wade, justifying the reports hat the Russians are sufficiently strong again to deal with the situation in that heater of the war, while directly opposite claims are made by Vienna which insists that in each of the eight attacks launched by the Slavs since hristmas they have been repulsed with

heavy losses. Vienna And Berlin Deny The Russians, say Vienna, expended uge amounts of munitions and sacriiced many men, without succeeding at any point of the attack.

The successes which have been claimed for the French in the Vosges are denied by the official statements from Berlin. A correspondent of Reuter's agency, who has been over the French front and in Flanders, making a general sur-

ceived satisfactory proof of the fact that the Allies are able to advance at almost any point along the cutire western front at any time it suits them to The preparations which he

vey of the situation, reports that he re-

found are complete for any number of great battles. In the Balkans, the developments of onsequence are the advance of the Italian force, which has been landed at Avlona and which is now on its way towards the Serbian frontier, and the reforming of a large portion of the Serbian army at Sentari reads beard a response, somewhat in the na-ture of a "hurrah," coming from the machine in which Doctor Pedon and with the Italians, who are reported to with the Italians, who are reported to be advancing through the southern passes to outer Serbia near the Greek
